

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

**Front Cover:**

**Tackling regulated cell death yields enhanced protection in lung grafts**

*Qian Chen et al. pp.4376*

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

## Inside Front Cover:

**Functional mass spectrometry imaging maps phospholipase-A2 enzyme activity during osteoarthritis progression**

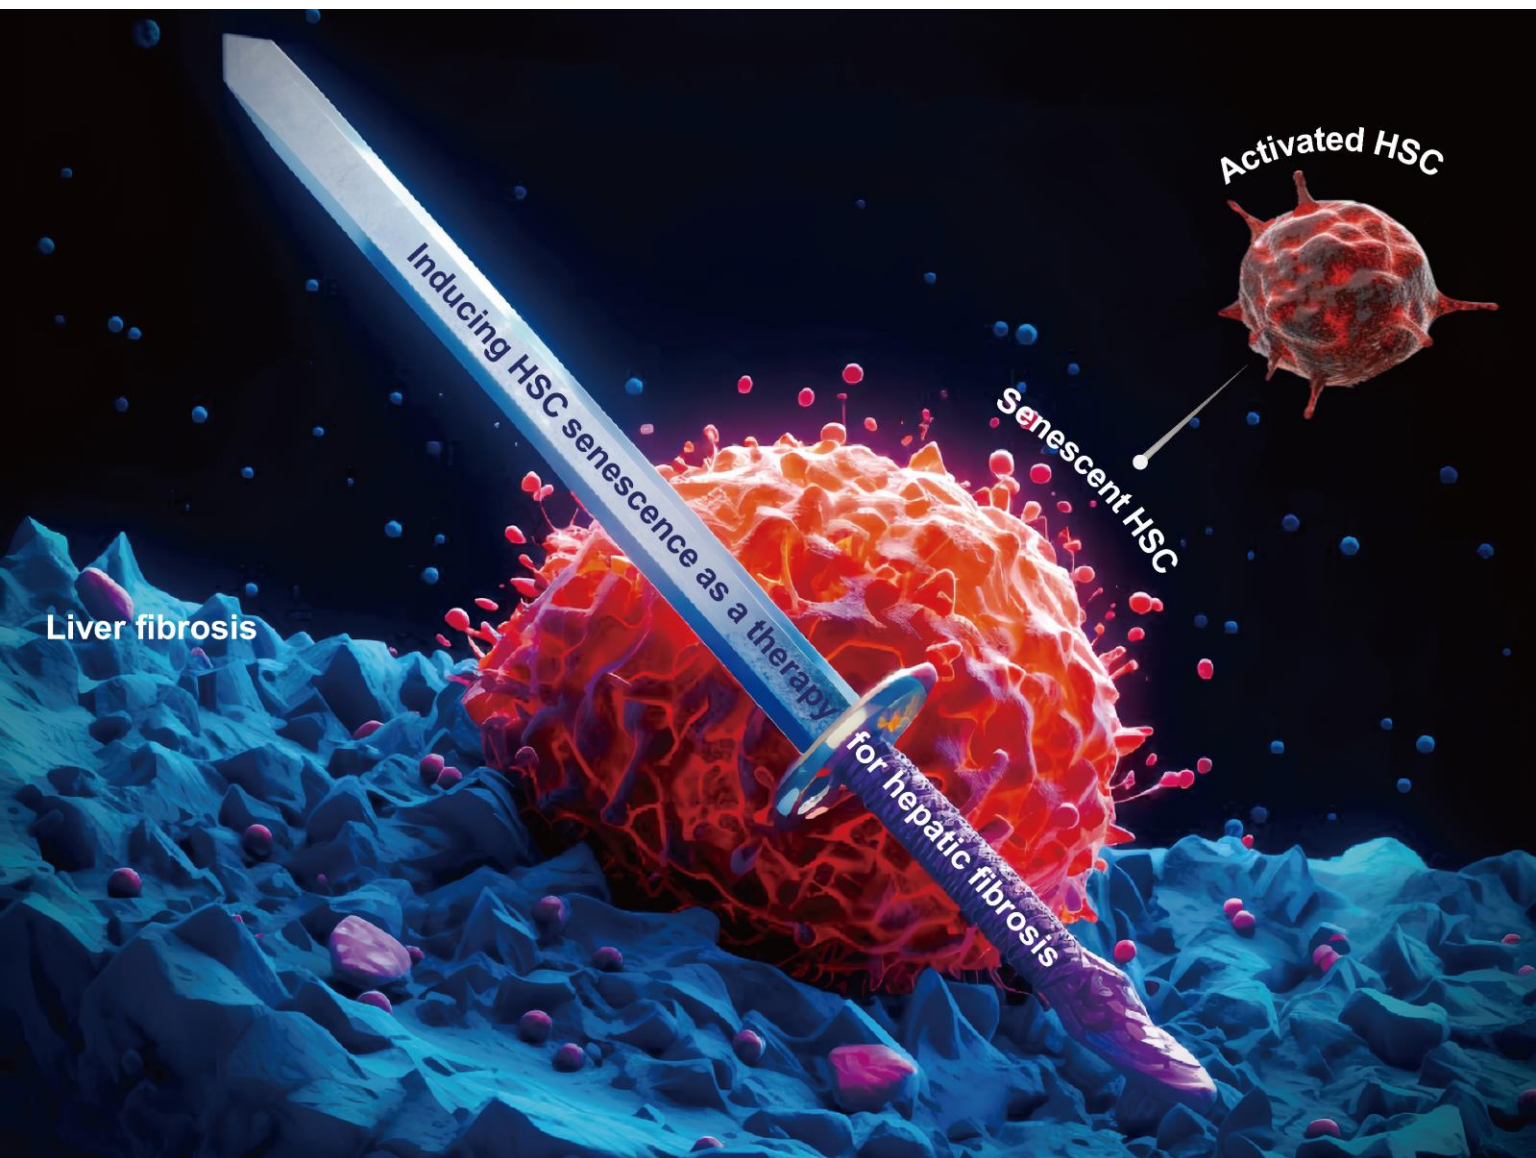

*Xiwei Fan et al. pp.4636*

**IVYSPRING**  
INTERNATIONAL PUBLISHER

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

## Inside Back Cover:

**Secretome of senescent hepatic stellate cells favors malignant transformation from nonalcoholic steatohepatitis-fibrotic progression to hepatocellular carcinoma**

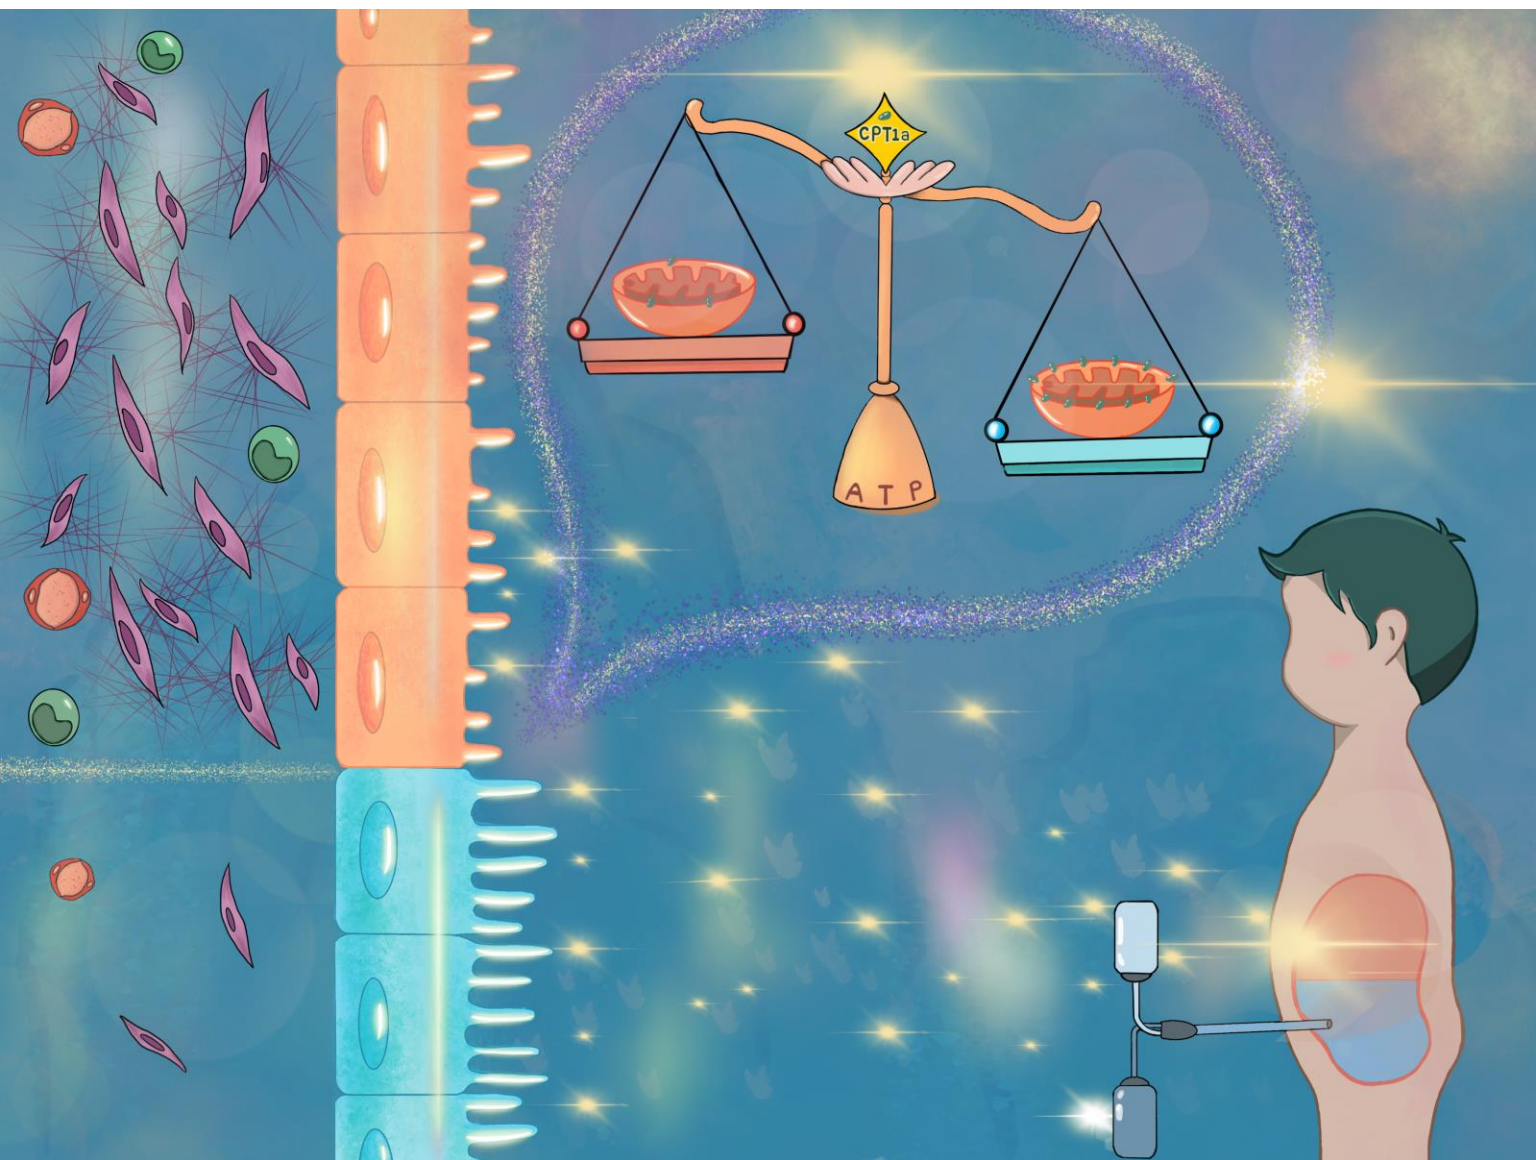

*Yuan Zhou et al. pp.4430*

IVYSPRING  
INTERNATIONAL PUBLISHER

# Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

## Back Cover:

**Restoration of CPT1A-mediated fatty acid oxidation in mesothelial cells protects against peritoneal fibrosis**

*Wenyan Su et al. pp.4482*

**IVYSPRING**  
INTERNATIONAL PUBLISHER
