

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Front Cover:

An innovative NRF2 nano-modulator induces lung cancer ferroptosis and elicits an immunostimulatory tumor microenvironment

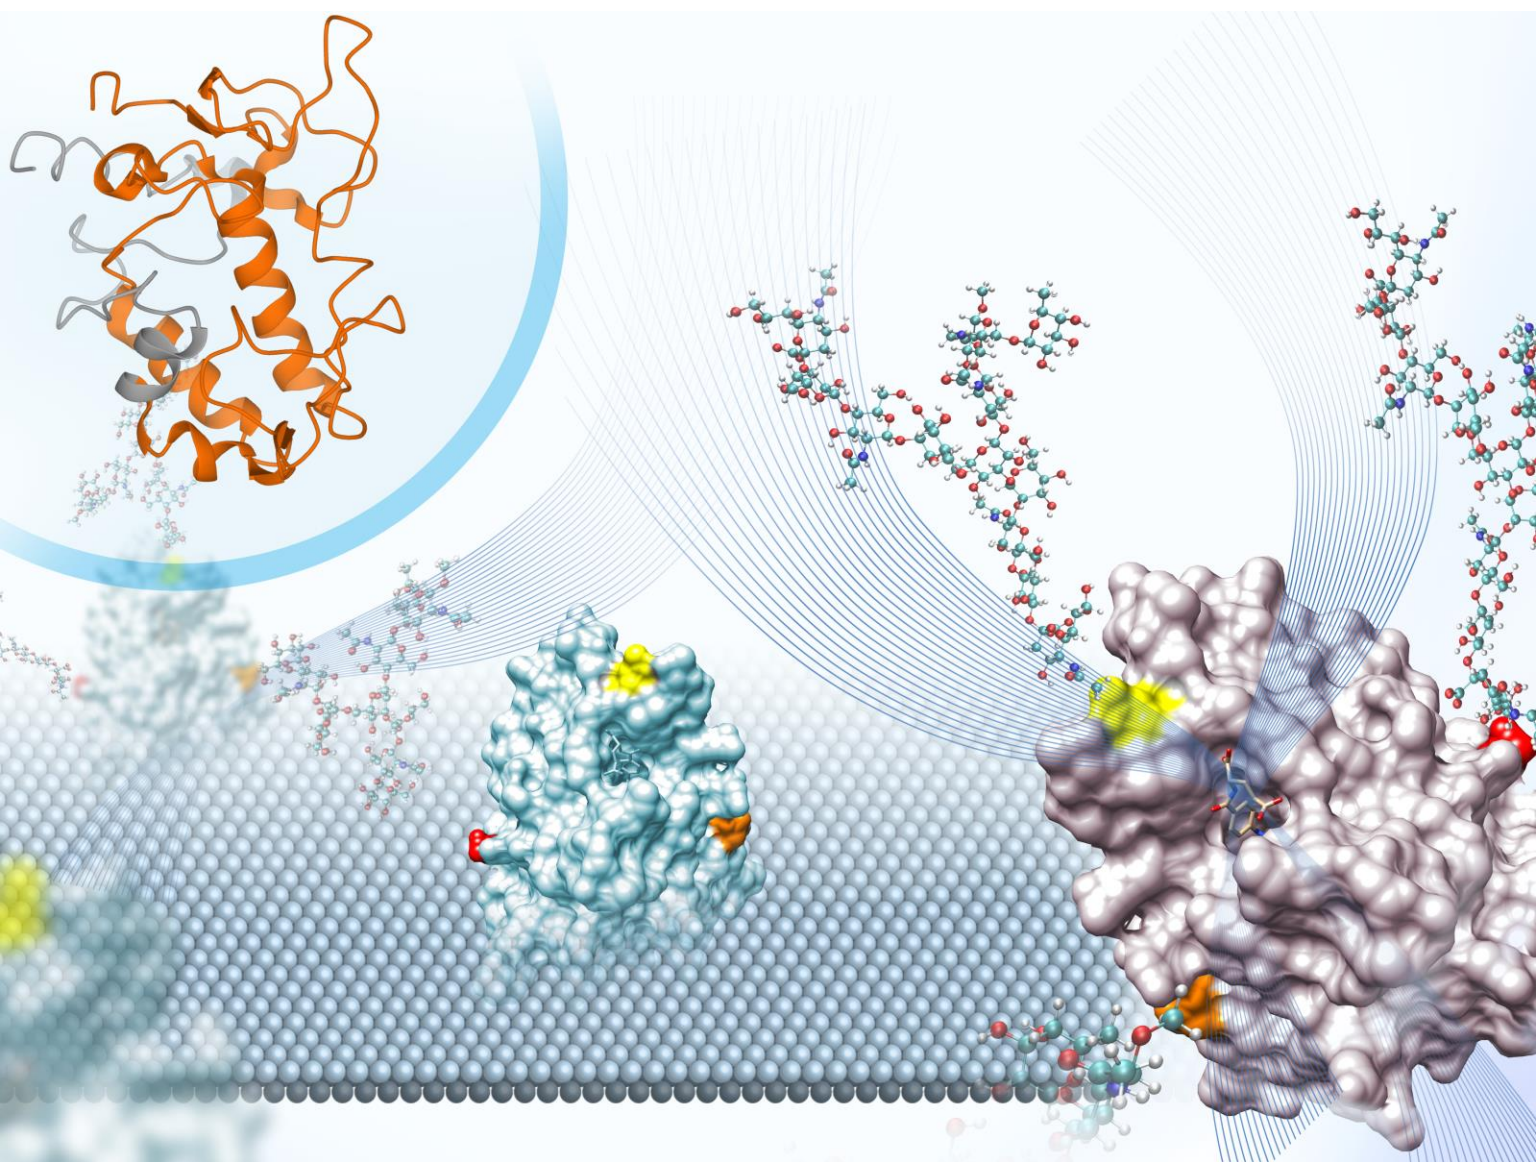

C.H. Hsieh et al. pp.7072

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Front Cover:

Site-specific glycoproteomic analysis revealing increased core-fucosylation on FOLR1 enhances folate uptake capacity of HCC cells to promote EMT

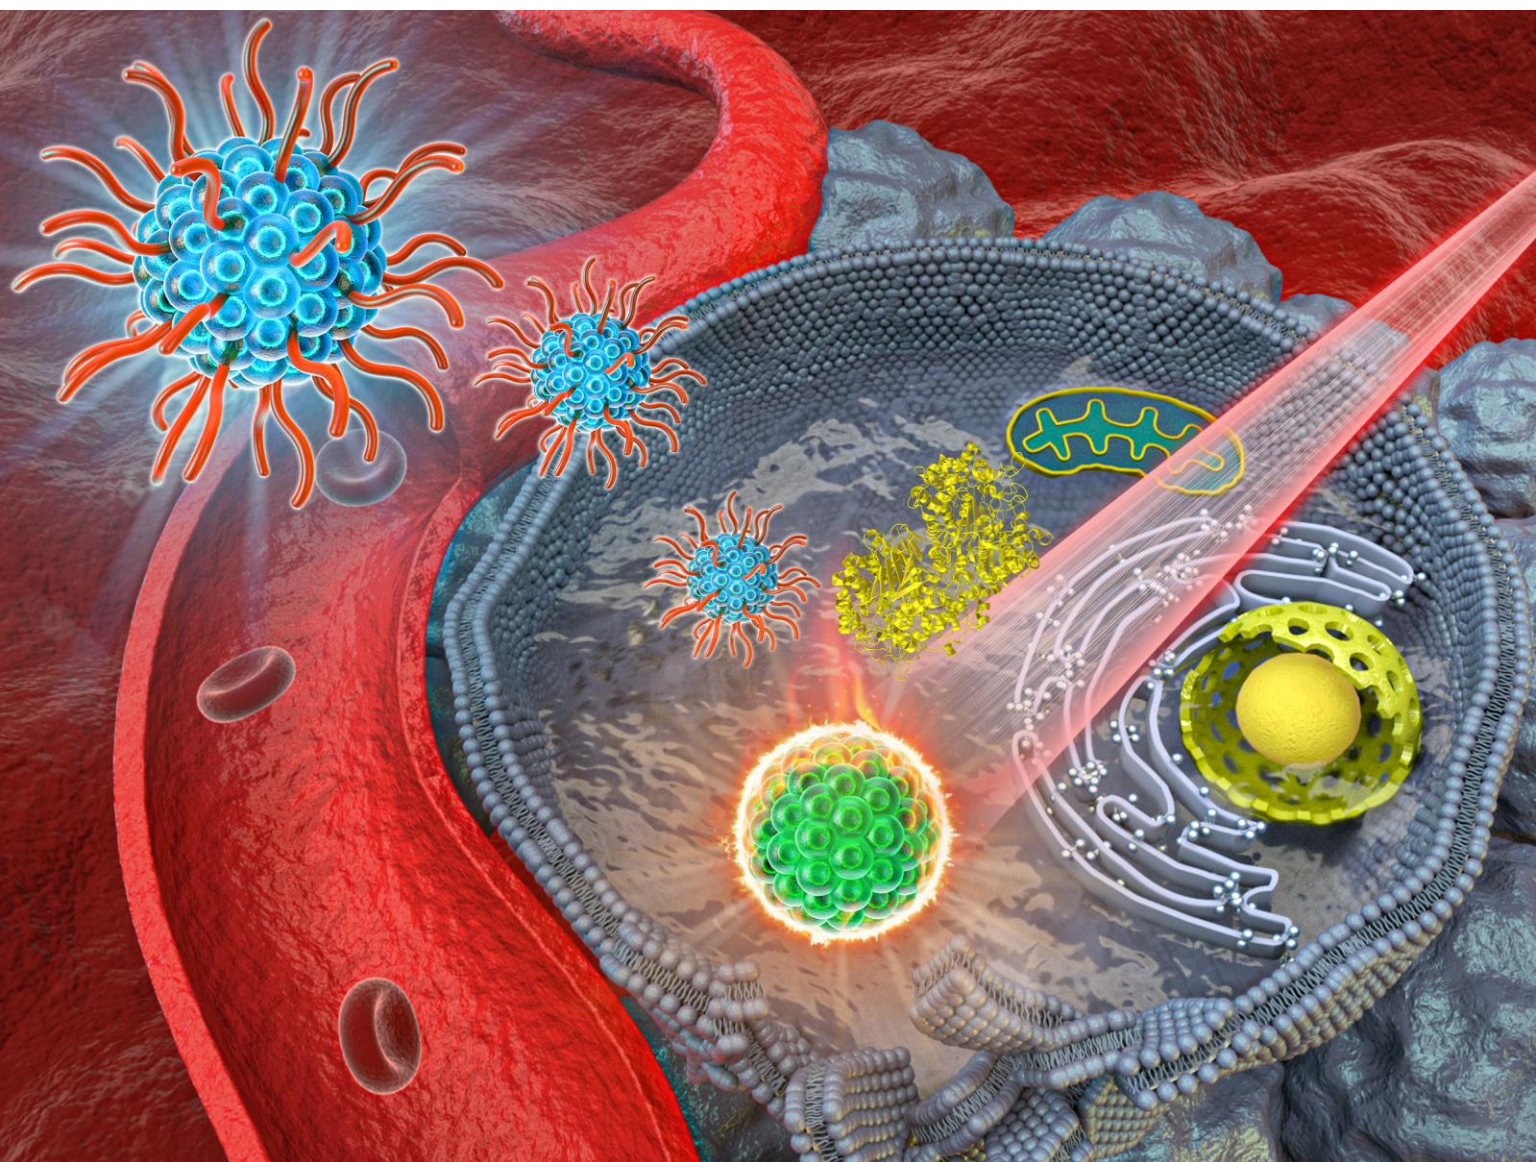

L. Jia et al. pp.6905

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Back Cover:

γ -Glutamyl transpeptidase-activatable near-infrared nanoassembly for tumor fluorescence imaging-guided photothermal therapy

F. Zhou et al. pp.7045

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Back Cover:

Converged Rab37/IL-6 trafficking and STAT3/PD-1 transcription axes elicit an immunosuppressive lung tumor microenvironment

I.Y. Kuo et al. pp.7029

IVYSPRING
INTERNATIONAL PUBLISHER
