

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Front Cover:

Fiber scaffold bioartificial liver therapy relieves acute liver failure and extrahepatic organ injury in pigs

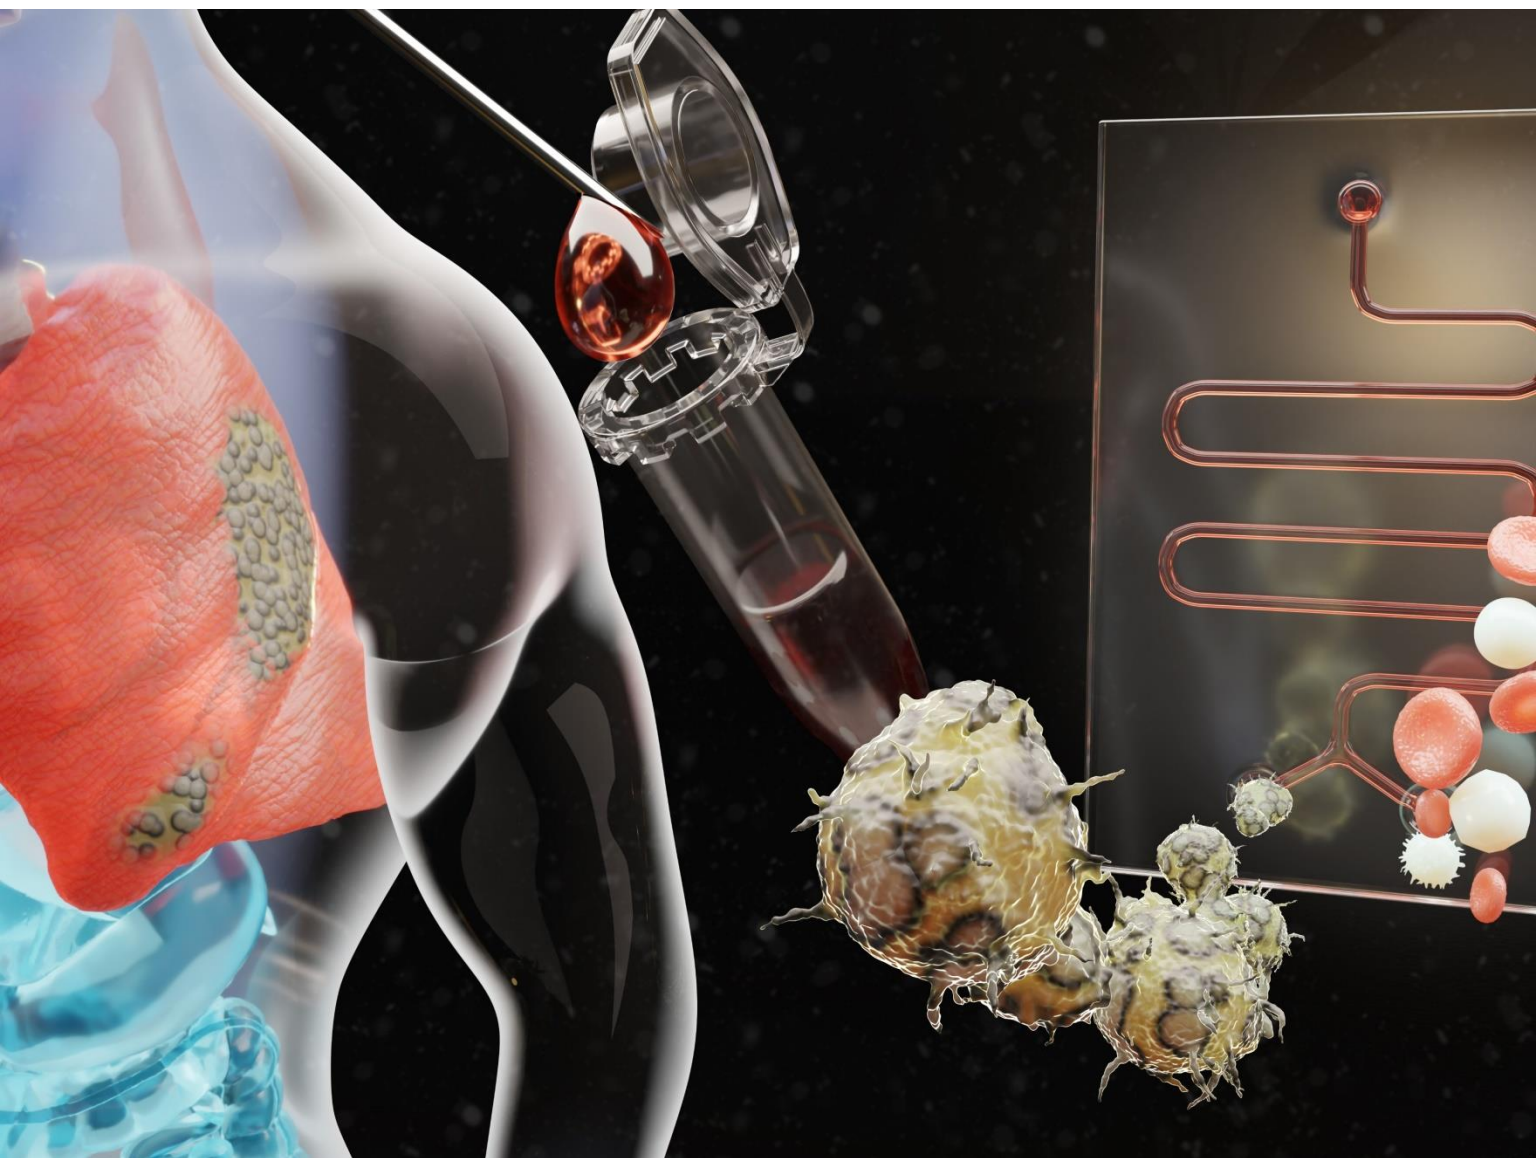

J. Weng et al. pp.7620

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Front Cover:

Emerging role of circulating tumor cells in immunotherapy

A. Rzhevskiy et al. pp.8057

IVYSPRING
INTERNATIONAL PUBLISHER

Volume 11 | Number 16 | 2021

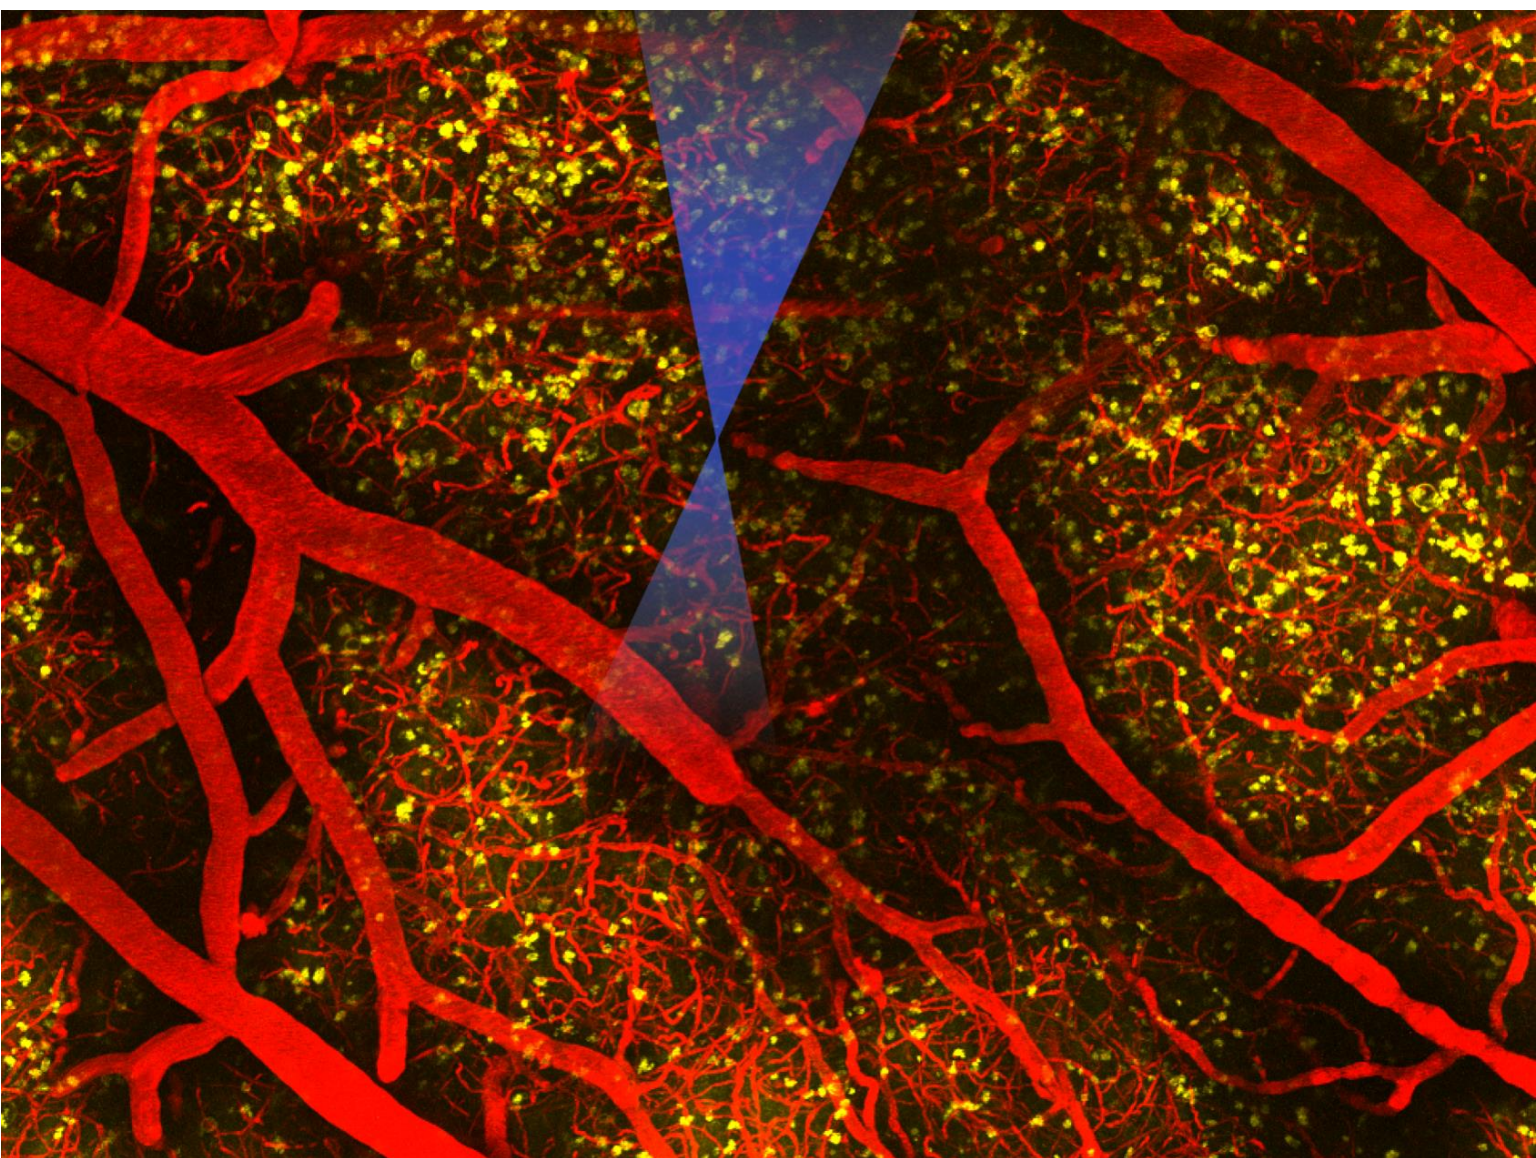

ISSN: 1838-7640

Impact factor
11.556

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Back Cover:

Attenuation of tonic inhibition prevents chronic neurovascular impairments in a Thy1-ChR2 mouse model of repeated, mild traumatic brain injury

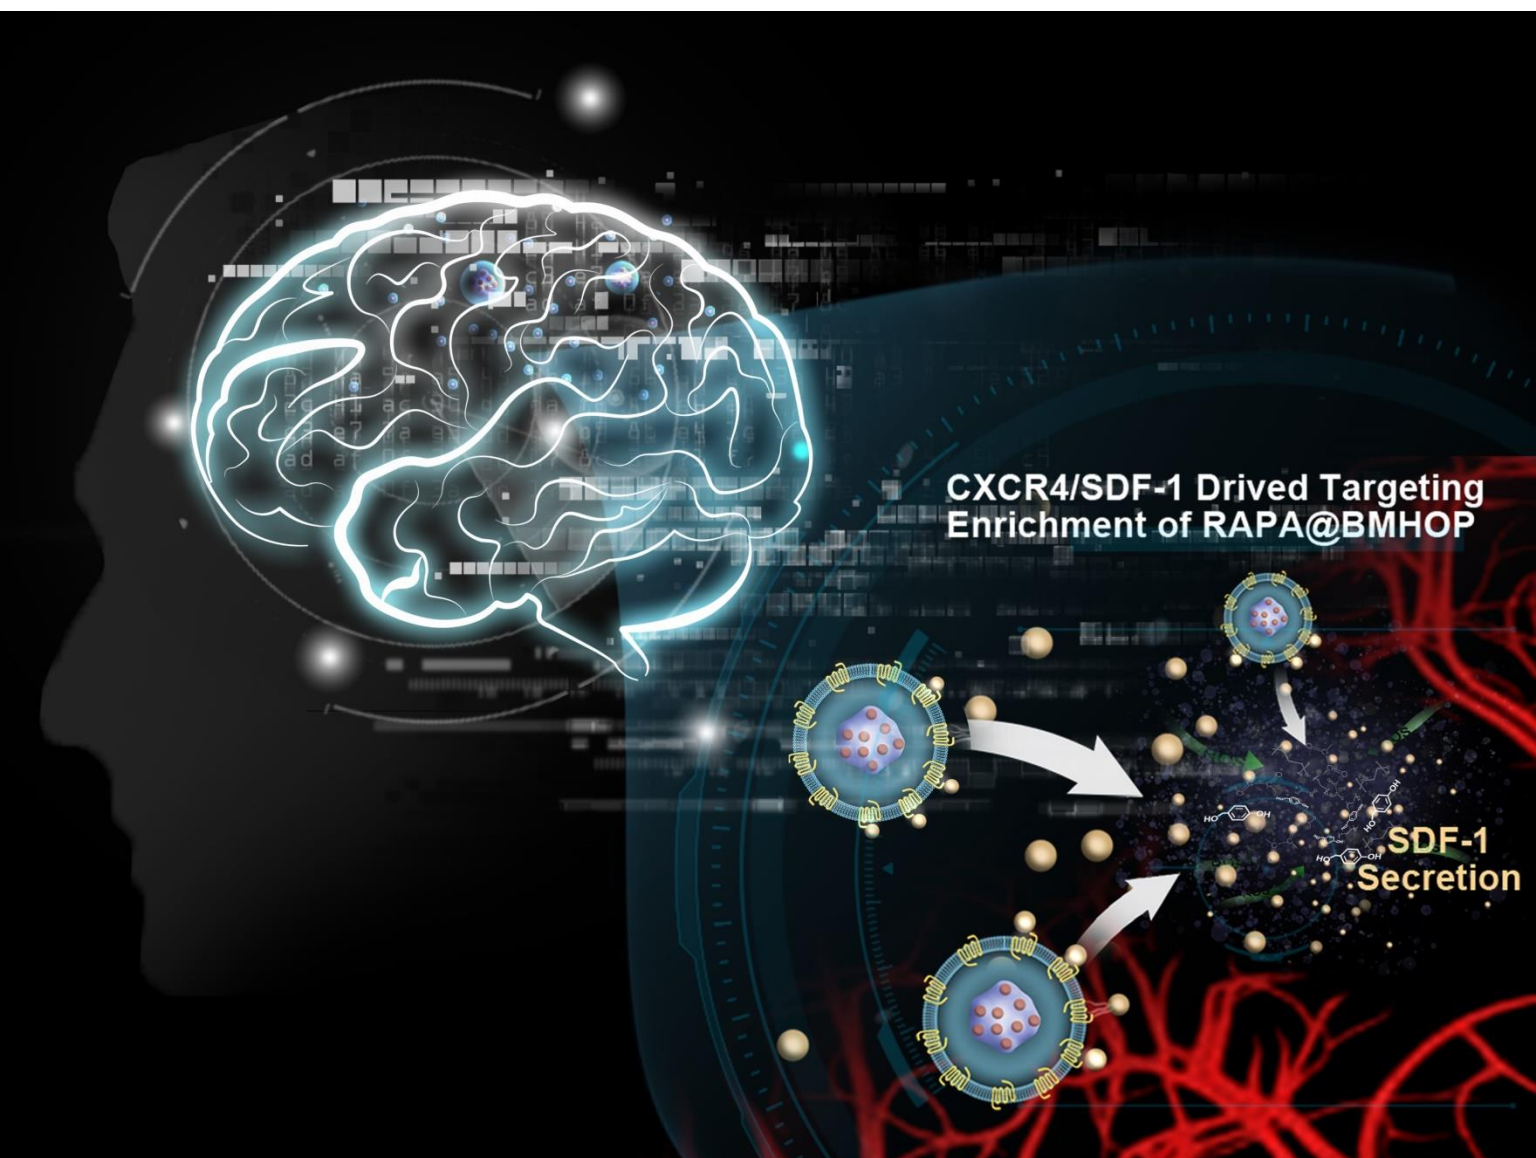

J. R. Mester et al. pp.7685

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Back Cover:

Bioengineering CXCR4-overexpressing cell membrane functionalized ROS-responsive nanotherapeutics for targeting cerebral ischemia-reperfusion injury

L. Luo et al. pp.8043

IVYSPRING
INTERNATIONAL PUBLISHER
