

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Front Cover:

IRGM/Irgm1 facilitates macrophage apoptosis through ROS generation and MAPK signal transduction: Irgm1^{+/-} mice display increased atherosclerotic plaque stability

S. Fang et al. pp.9358

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Front Cover:

Shining light on chiral inorganic nanomaterials for biological issues

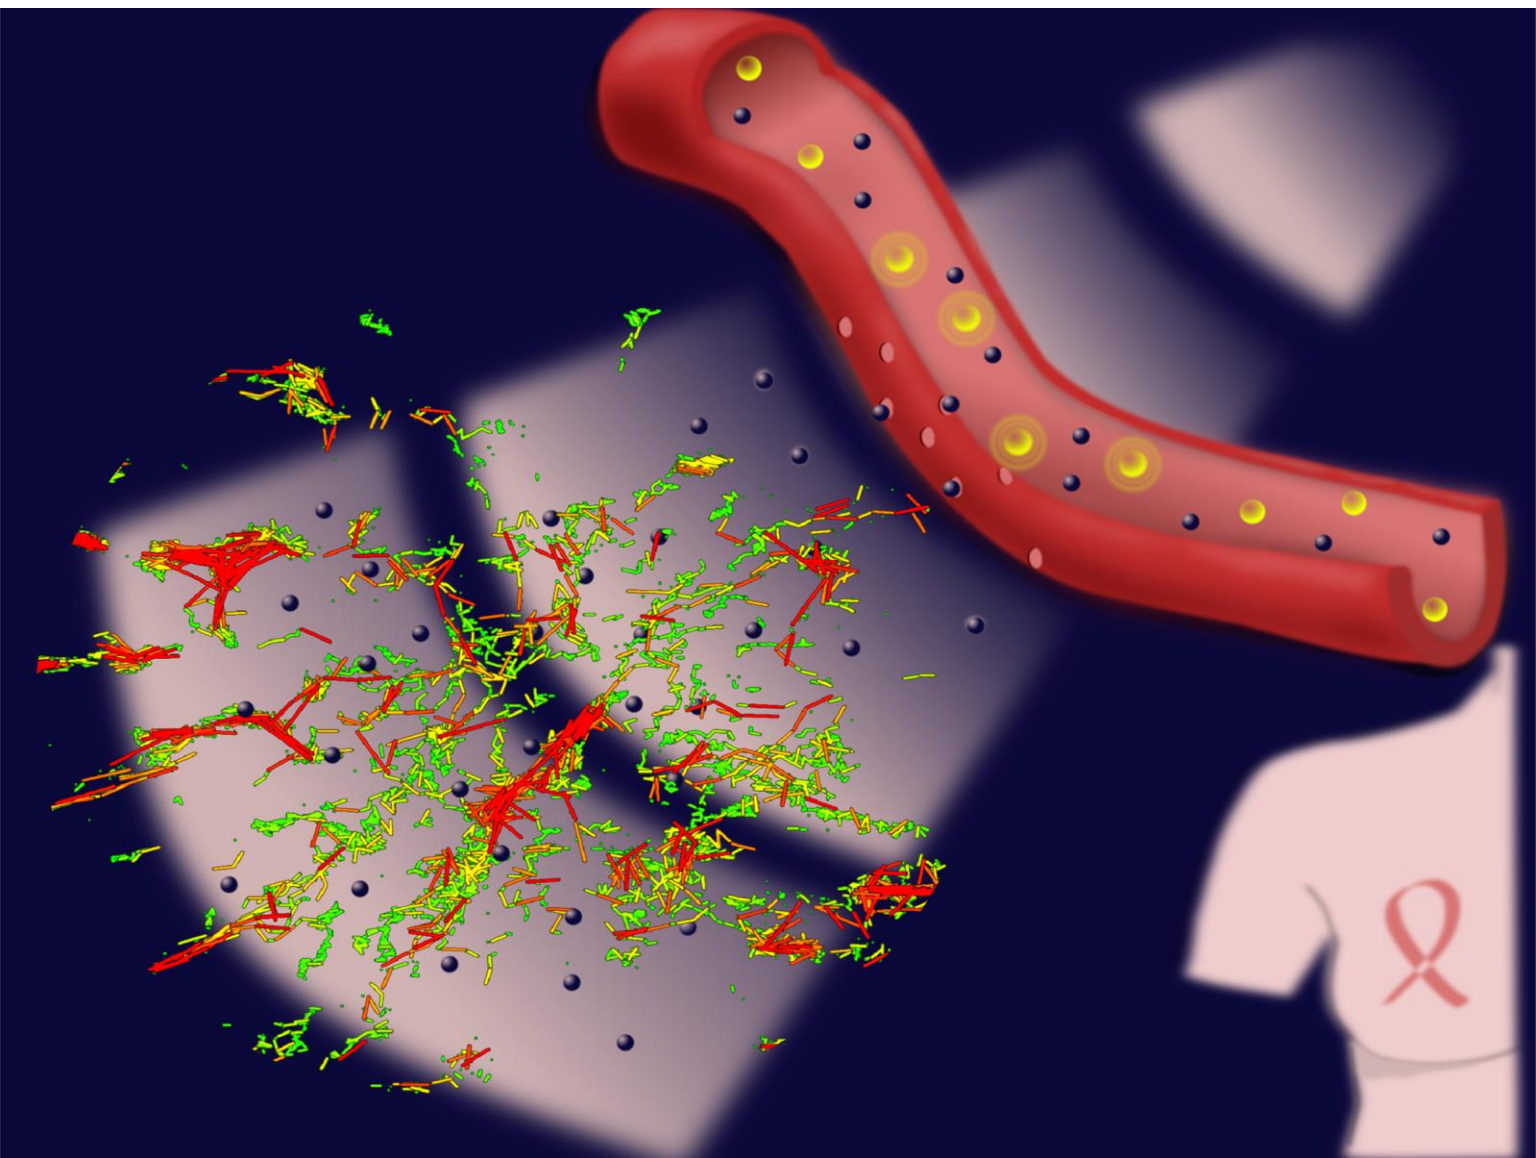

Y. Shao et al. pp.9262

IVYSPRING

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Back Cover:

Effects of contrast-enhanced ultrasound treatment on neoadjuvant chemotherapy in breast cancer

A. Rix et al. pp.9557

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Back Cover:

Inhibition of tumor progression and M2 microglial polarization by extracellular vesicle-mediated microRNA-124 in a 3D microfluidic glioblastoma microenvironment

S. Hong et al. pp.9687
