Front Cover:
Tumor-infiltrating lymphocytes are functionally inactivated by CD90+ stromal cells and reactivated by combined Ibrutinib and Rapamycin in human pleural mesothelioma
H. Yang et al. pp.167
Inside Front Cover:
Hypoxia-primed monocytes/macrophages enhance postinfarction myocardial repair
Y. Zhu et al. pp.307
Inside Back Cover:
Tubular epithelial cell-to-macrophage communication forms a negative feedback loop via extracellular vesicle transfer to promote renal inflammation and apoptosis in diabetic nephropathy
W.-J. Jiang et al. pp.324
Back Cover:
Targeting protumor factor chitinase-3-like-1 secreted by Rab37 vesicles for cancer immunotherapy
P.-S. Yang et al. pp.340
