

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Front Cover:

Annexin-A1 deficiency attenuates stress-induced tumor growth via fatty acid metabolism in mice: an Integrated multiple omics analysis on the stress-microbiome-metabolite-epigenetic-oncology (SMMEO) axis

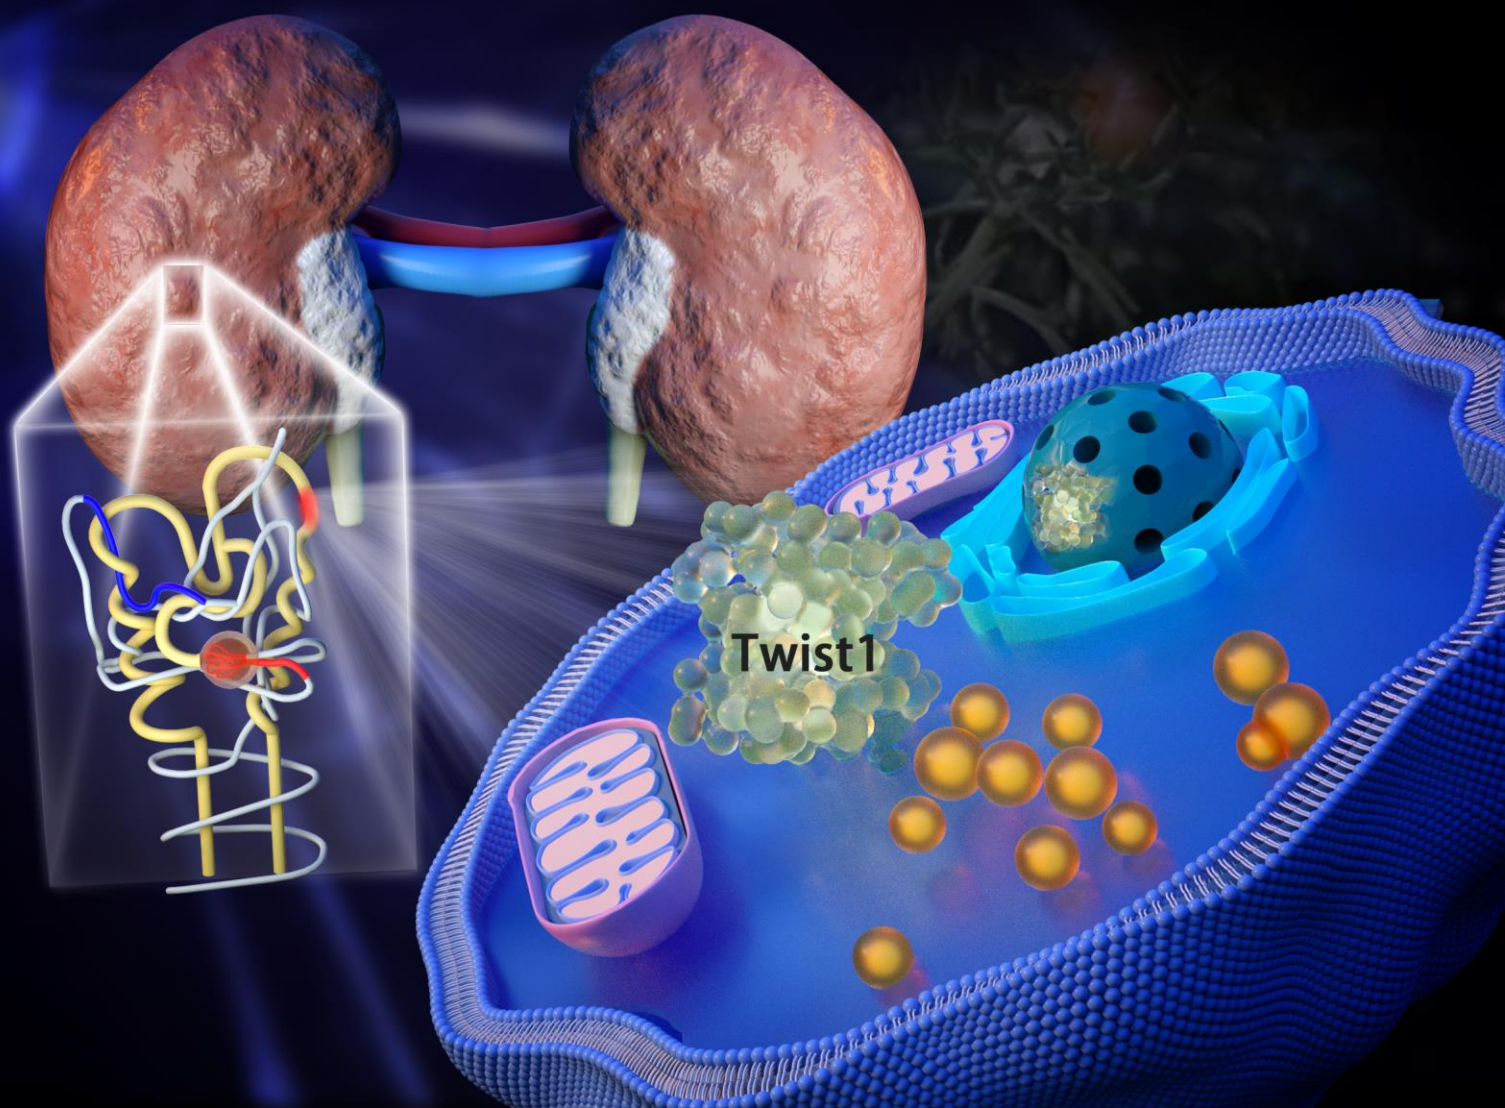

J. Cui et al. pp.3794

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Front Cover:

Twist1 downregulation of PGC-1 α decreases fatty acid oxidation in tubular epithelial cells, leading to kidney fibrosis

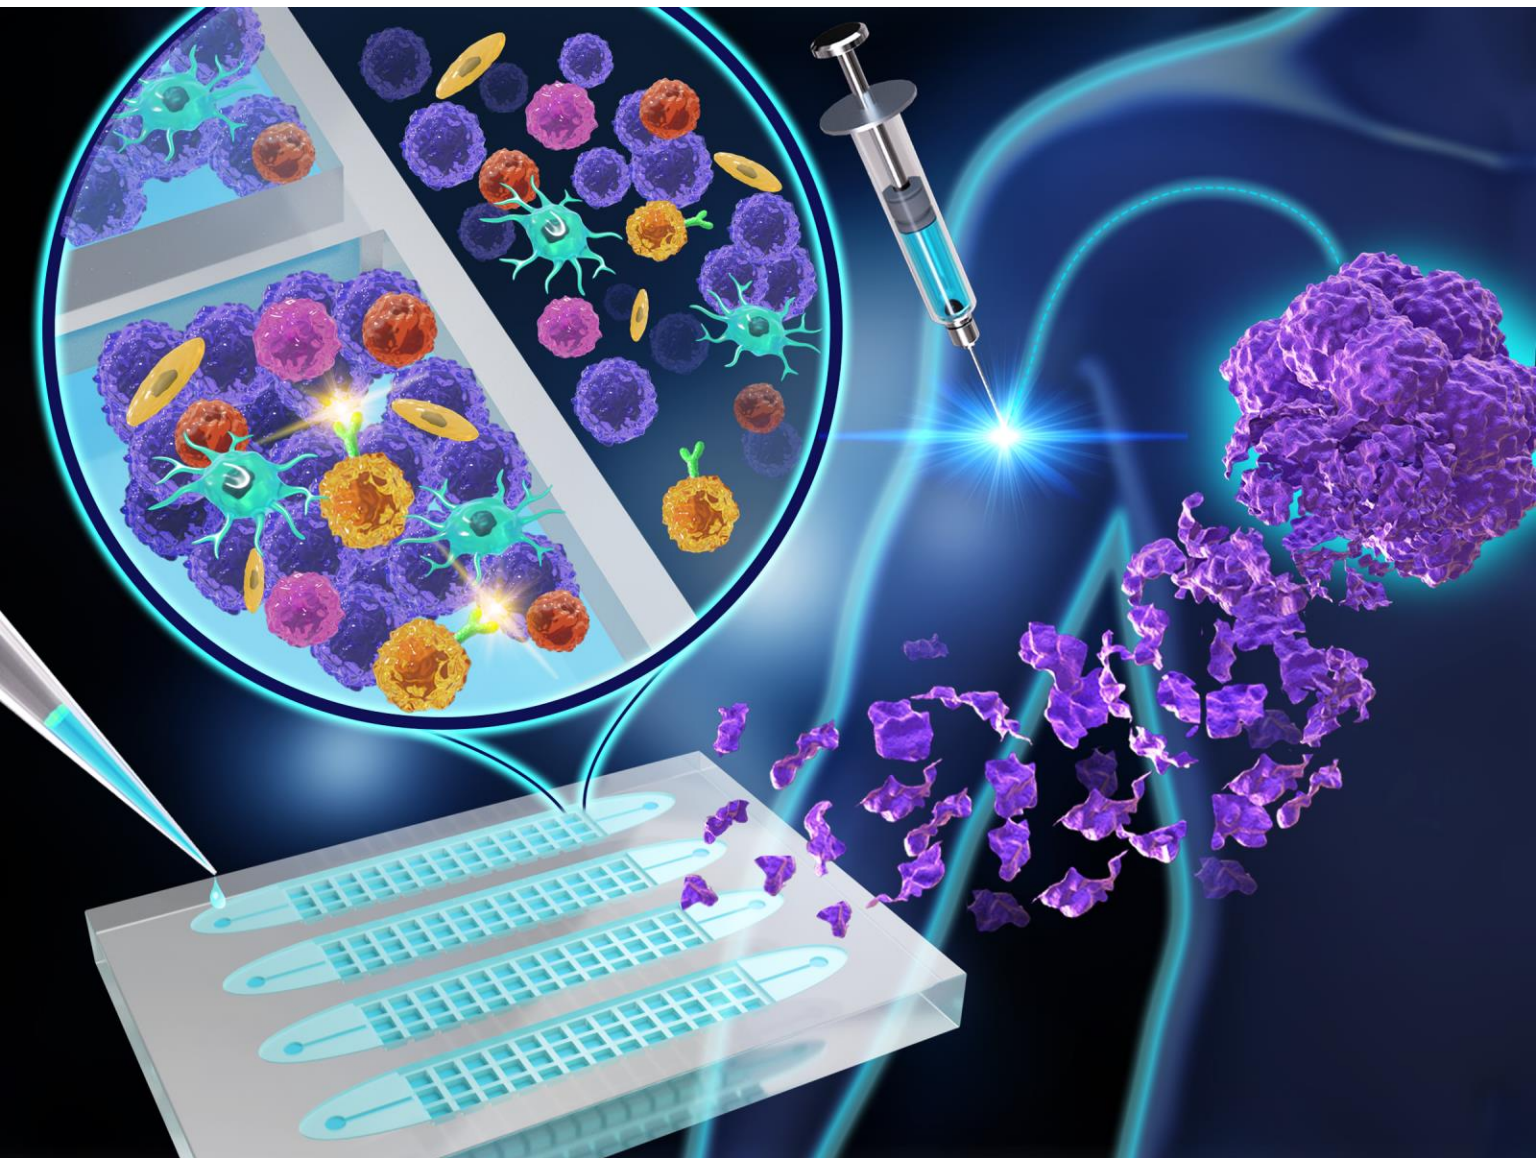

L. Liu et al. pp.3758

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Back Cover:

Evaluation of cancer immunotherapy using mini-tumor chips

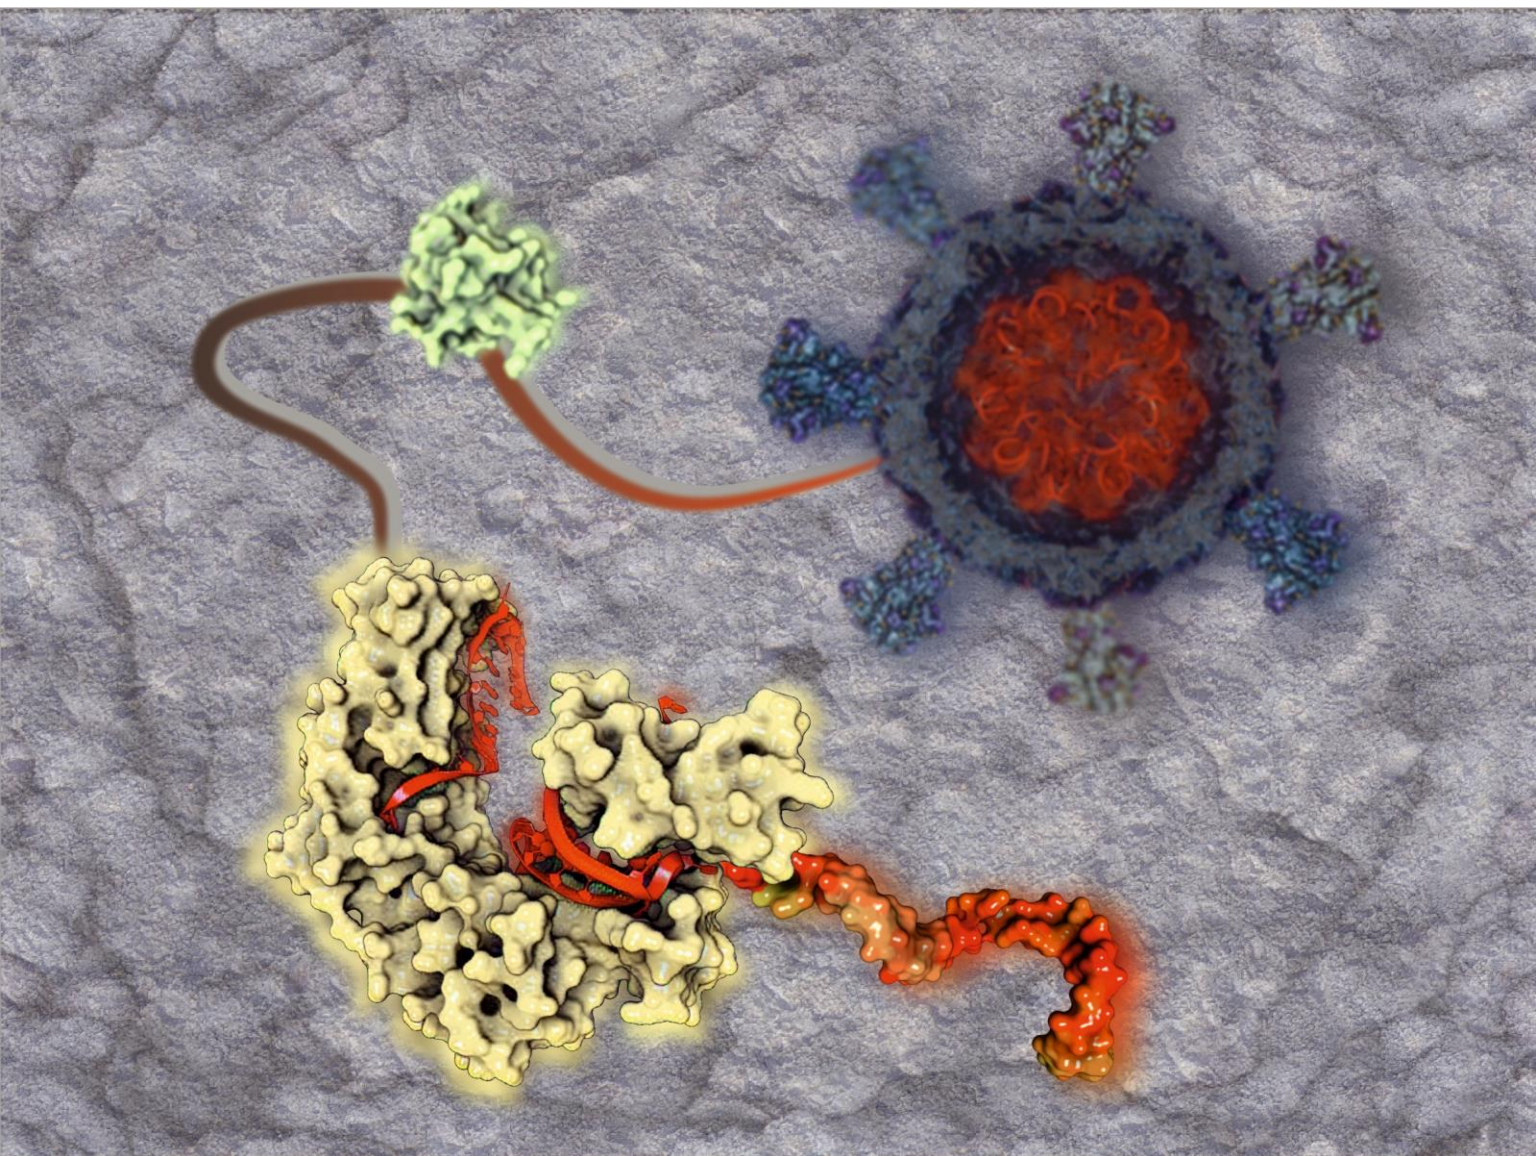

Z. Ao et al. pp.3628
