

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Front Cover:

Annexin-A1 deficiency attenuates stress-induced tumor growth via fatty acid metabolism in mice: an Integrated multiple omics analysis on the stress-microbiome-metabolite-epigenetic-oncology (SMMEO) axis

J. Cui et al. pp.3794

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Front Cover:

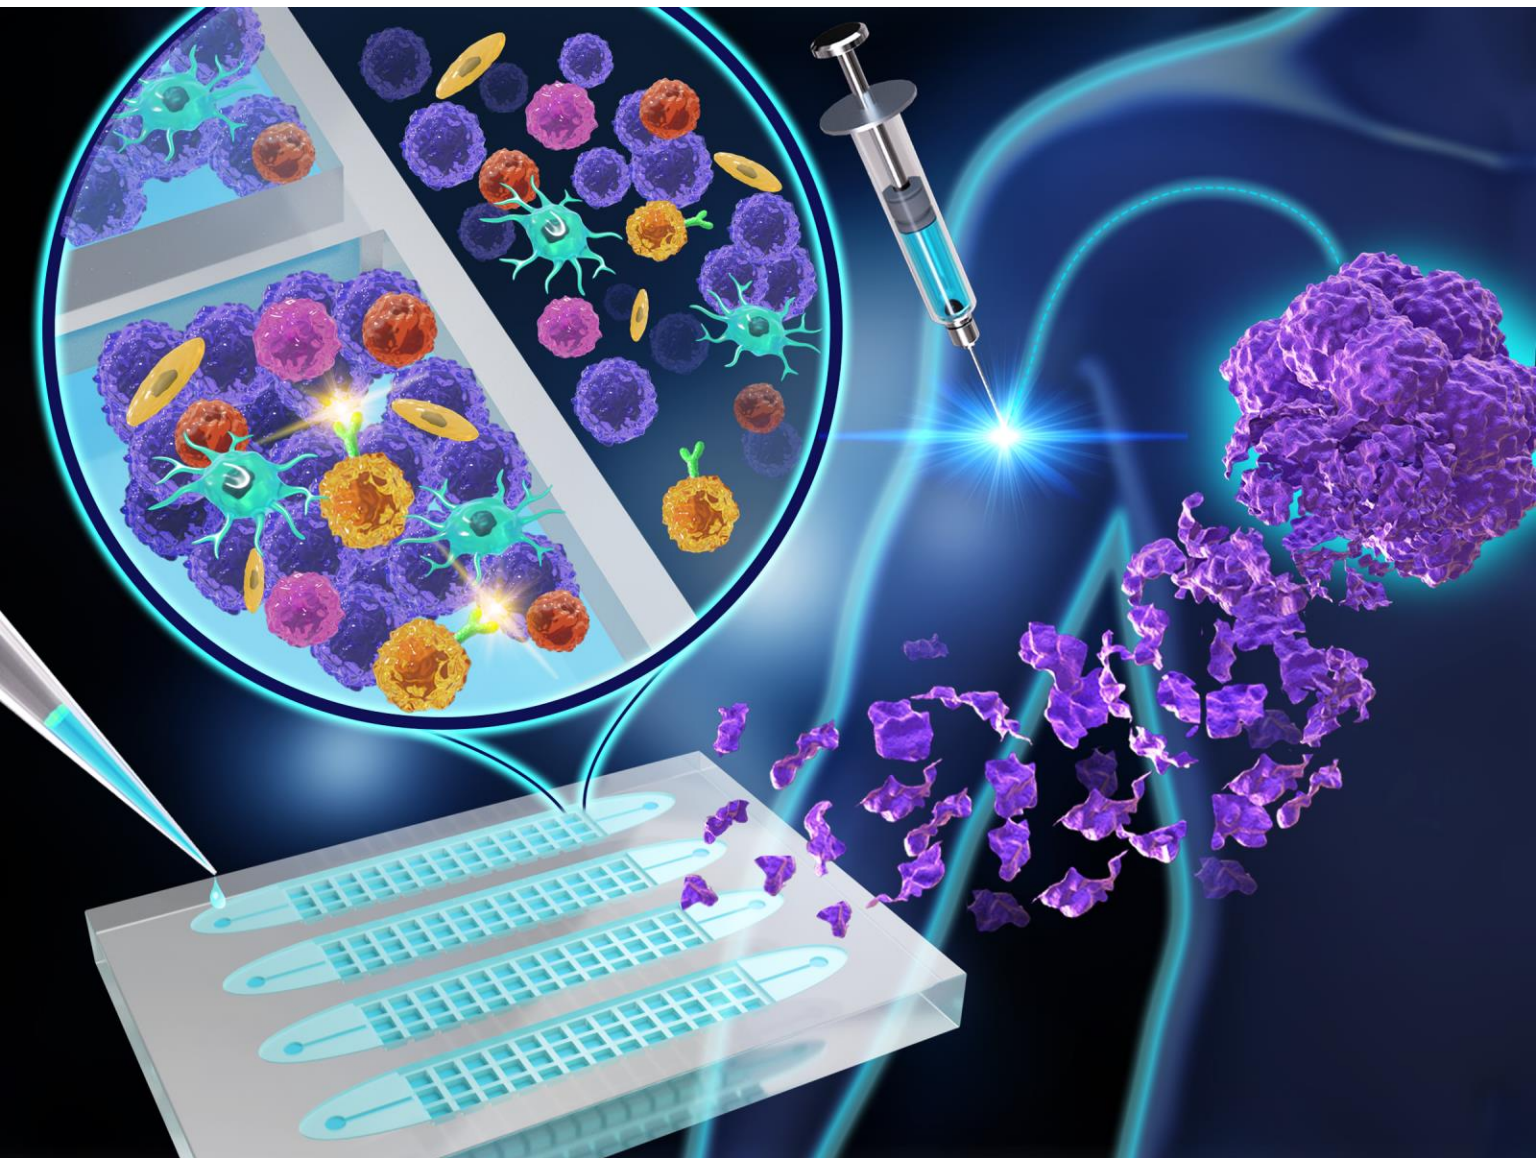

Twist1 downregulation of PGC-tubular epithelial cells, leading to kidney fibrosis

L. Liu et al. pp.3758

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Back Cover:

Evaluation of cancer immunotherapy using mini-tumor chips

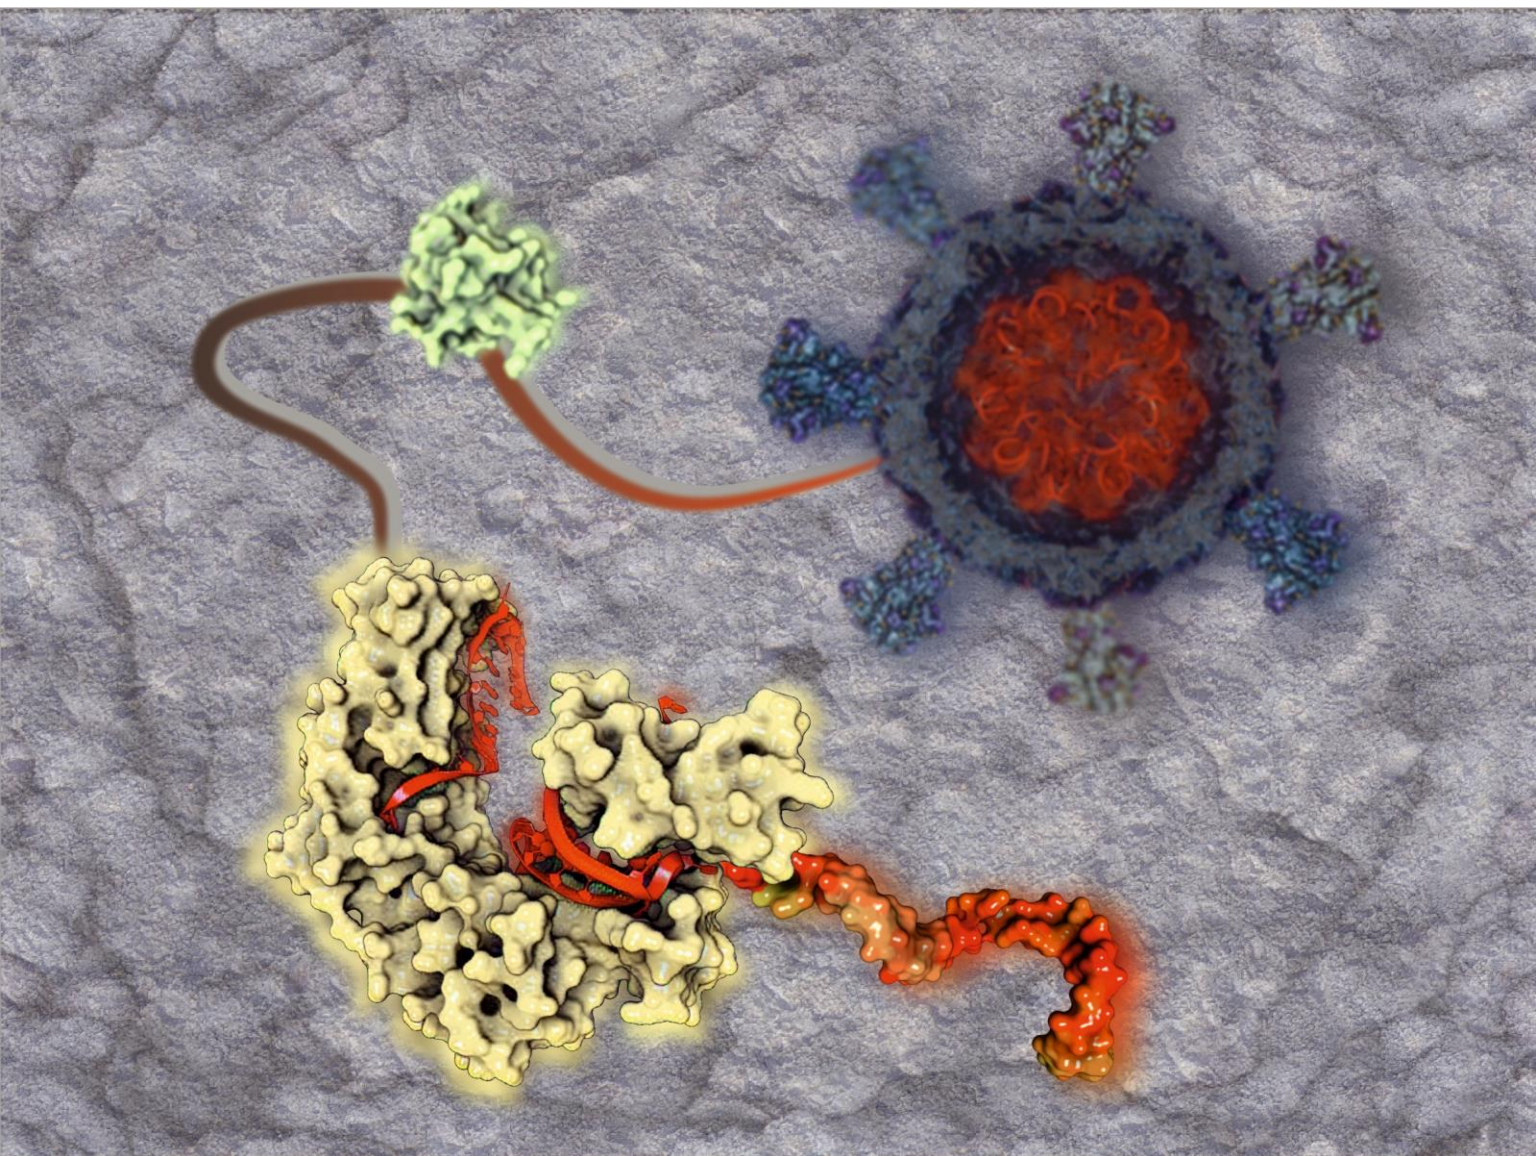

Z. Ao et al. pp.3628
