

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Front Cover:

Hypothalamic P62 (SQSTM1) regulates energy balance by modulating leptin signaling

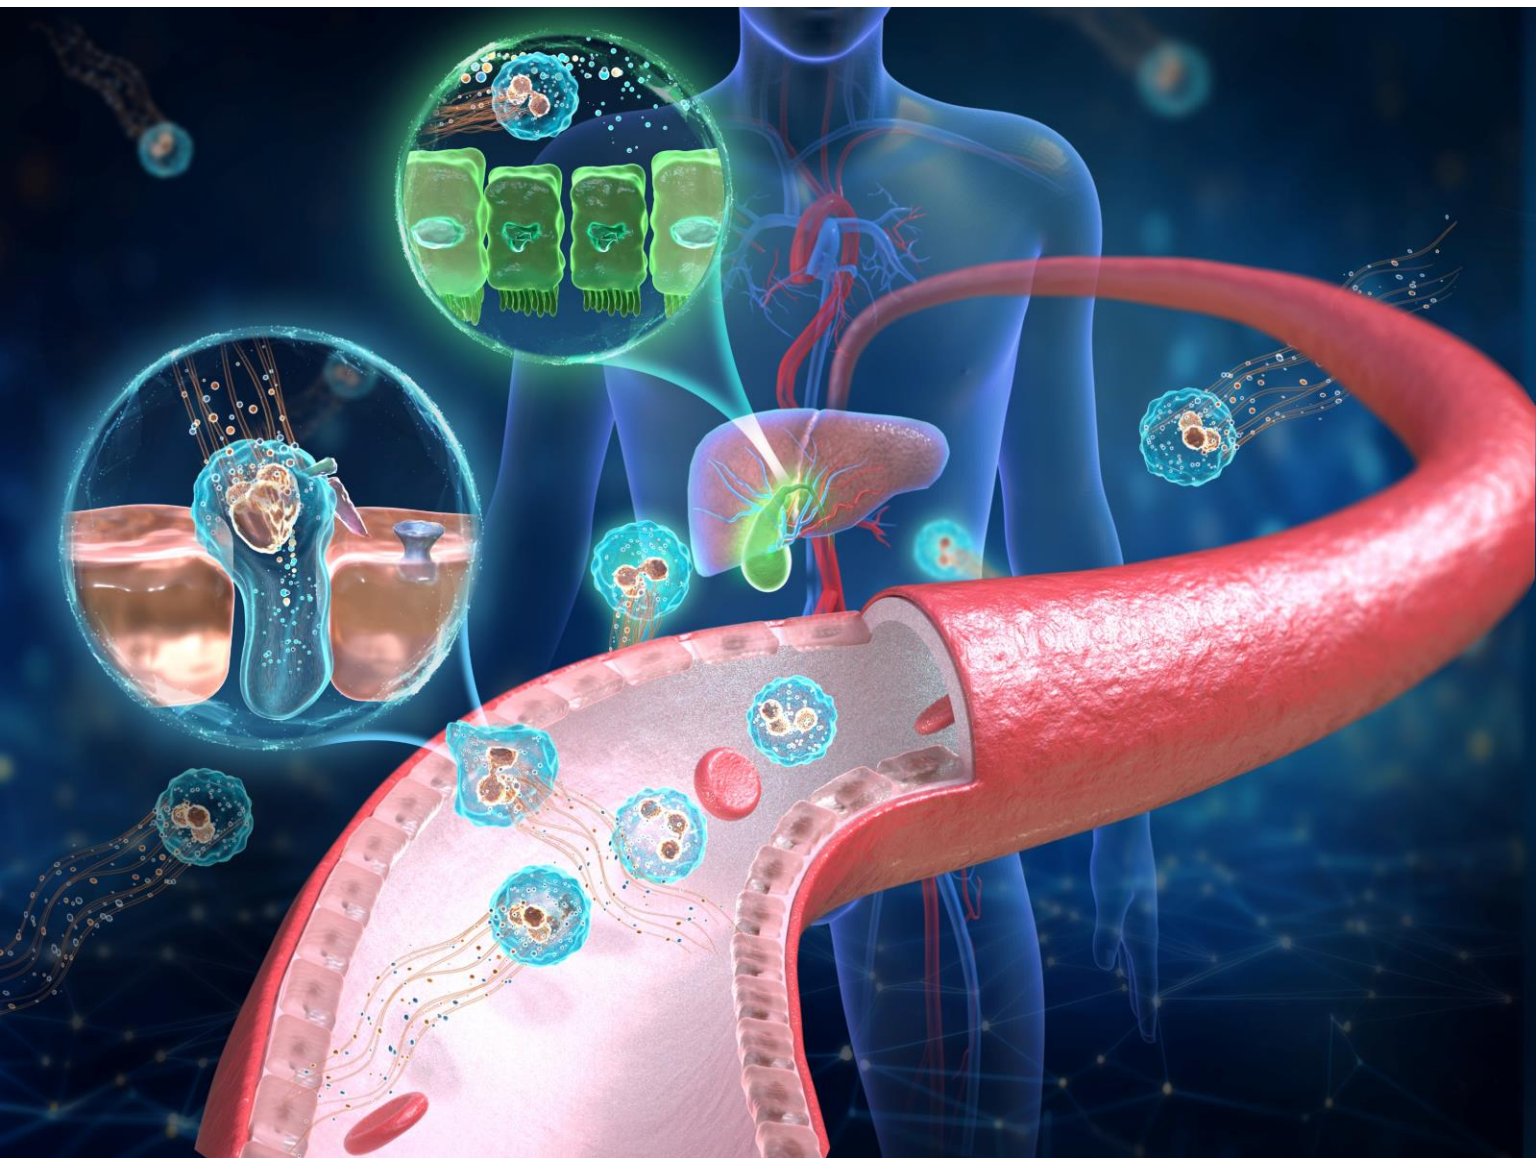

Shan Yang et al. pp.6605

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Front Cover:

Low hepatic artery blood flow mediates NET extravasation through the regulation of PIEZO1/SRC signaling to induce biliary complications after liver transplantation

Hongqiang Yu et al. pp.6783

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Inside Back Cover:

SPOP downregulation promotes bladder cancer progression based on cancer cell-macrophage crosstalk via STAT3/CCL2/IL-6 axis and is regulated by VEZF1

Meiqian Li et al. pp.6543

IVYSPRING
INTERNATIONAL PUBLISHER

Theranostics

The Forum for Diagnostics, Imaging, and Therapy Research

Back Cover:

Mitochondrial transfer balances cell redox, energy and metabolic homeostasis in the osteoarthritic chondrocyte preserving cartilage integrity

Angela C. Court et al. pp.6471

IVYSPRING
INTERNATIONAL PUBLISHER
