The authors regret to find an error in Figure 5C, in which the Transwell invasion image of siDANCR-1+HIF-1 α hypoxic (+) group was mistakenly used. The authors have revised the image of Figure 5C, and confirm that the correction has no effect on the conclusions of the study. Please accept our sincere apologies for any inconvenience caused. Following is a revised arrangement of Figure 5C.

Figure 5. LncRNA DANCR promotes NPC cell migration and invasion via HIF-1 α . (C) Representative and quantification results of the invasion assays for HONE-1 and SUNE-1 cells under hypoxic conditions. Scale bar, 100 μ m. Data are presented as mean \pm SD; Student's t-tests; * P <0.05.
